

Directions to Lambertville Wing Dam: Go to Lambertville, NJ. Find the bridge between New Hope and Lambertville. The entrance to the parking area for the wing dam is the last left turn you can make on the New Jersey side before crossing the bridge. (If you are crossing the bridge from New Hope, it will be the first right.)

Go past the restaurant parking lot and wind your way around to the boat launch area. Go as far as you can and find a place to park.
